# Jose Zuniga

## Senior Technical Program Manager

Cloud Transformation | DevOps | SRE | Enterprise Automation | APIs & Integrations | Agile Delivery | AI Enablement

**Phone:** +506 8897-5841 | **Email:** josean.111@gmail.com | **Location:** Costa Rica
**LinkedIn:** linkedin.com/in/jose-azuniga | **GitHub:** github.com/josean111 | **Portfolio:** josean111.github.io/Jose_Zuniga_Portfolio

## PROFESSIONAL SUMMARY

Senior Technical Program Manager with **18+ years in enterprise technology** and **15+ years leading technical programs and projects** across enterprise software delivery, cloud transformation, infrastructure modernization, and Agile engineering organizations at IBM, Equifax, Optiva, and HP. Pairs program leadership with hands-on engineering: **8+ years of programming** (Python, Java, JavaScript, SQL), REST API integration, and Python/Jira API automation that cut manual reporting effort by **80%**; **7-8 years of DevOps and cloud work** (CI/CD, Kubernetes, AWS, Azure, GCP, IBM Cloud); and **3.5+ years as an IBM Site Reliability Engineer**, where structured incident management improved MTTR by **30%**.

Partners with executives, architects, and engineering, QA, data, and operations teams to turn business requirements into predictable, production-ready delivery. Has also taught **3,000+ hours of instructor-led technical training** across AMER, EMEA, and APAC, and is expanding into AI enablement and full-stack development.

## CORE COMPETENCIES

Technical Program & Project Management • Enterprise Software Delivery • Cloud Transformation • Technical Discovery & Solution Scoping • Delivery Governance • Risk & Dependency Management • Release Management • Executive Reporting • Agile (Scrum, Kanban, SAFe) • Incident Management • SRE • DevOps & CI/CD • APIs & Integrations • Python & Jira API Automation • Data Platform Delivery • AI Enablement • Technical Training

## PROFESSIONAL EXPERIENCE

**Senior Technical Program Manager / Product Owner** Sep 2024 - Present
*iTree Training | Remote*

- Direct end-to-end delivery of enterprise, cloud-native, and data-platform initiatives across 2 cloud platforms (AWS, Azure), aligning 5 stakeholder groups: engineering, QA, infrastructure, product, and business.
- Built Python and Jira REST API automation that reduced manual reporting effort by **80%**, saving **40+ hours per month** of operational work.
- Created executive dashboards tracking delivery health, MTTR, recurring issues, and operational performance; standardized delivery reporting across teams, lifting milestone visibility from **70% to 90%**.
- Designed enterprise incident management workflows covering detection, escalation, communication, root cause analysis, and post-mortem reviews.
- Coordinate data ingestion and analytics work across **4 data pipelines** and 2 platforms (Databricks, SQL, cloud data services) with data engineering teams; contribute to API integration strategy spanning **10+ integrations** and to AI-enabled workflow initiatives.

**Site Reliability Engineer (Technical Delivery, Automation & Incident Management)** Mar 2021 - Sep 2024
*IBM | Remote*

- Managed high-severity production incidents across global engineering organizations, improving MTTR by **30%**.
- Deployed observability using Datadog, Prometheus, ELK, and cloud-native monitoring, improving incident detection by **40%**.
- Drove recurring-incident analysis and root cause reviews, reducing repeat incidents by **25%**.
- Automated operational workflows with Python and REST APIs, cutting manual operational effort by **70%**.
- Supported enterprise SaaS platforms across 3 cloud environments (AWS, Azure, IBM Cloud) running microservices on Kubernetes; validated roughly **20-30 deployments and releases** and handled roughly **20-30 incidents**.

**Scrum Master / Engineering Project Manager** Sep 2019 - Mar 2021
*Optiva | Remote*

- Oversaw multiple concurrent engineering initiatives for highly available telecommunications platforms, coordinating **60+ engineering, QA, and operations staff** across the Americas, Asia, Europe, and Africa through software implementation lifecycles.
- Raised sprint predictability from **65% to 85%** by integrating operational risk management into delivery planning.
- Drove delivery of **15+ API integrations** between telecommunications platforms and customer-facing systems, partnering with architects on solution planning; led executive communications during production incidents and delivery reviews.

**Engineering Project Manager** Nov 2015 - Sep 2019
*Equifax | Costa Rica*

- Directed cloud modernization, CI/CD transformation, and automation initiatives, including AWS cloud migration and cloud governance with platform engineering teams.
- Cut failed deployments by **35%** and improved release consistency by **25%** through release and CI/CD improvements.
- Engineered API automation using Python, JavaScript, SQL, and Jira APIs, reducing reporting effort by **80%**; created executive reporting platforms that improved delivery visibility.
- Contributed to enterprise microservices work and chatbot and AI-enabled automation initiatives.

**Technical Project Manager** Mar 2012 - Nov 2015
*Equifax | Costa Rica*

- Executed infrastructure modernization for mission-critical systems and raised on-time delivery from **65% to 85%** through Agile implementation.
- Automated operational reporting, cutting manual effort by **60%**; coordinated REST API integrations and advanced modernization of monoliths toward service-oriented architectures.

**Technical Support Team Lead** Oct 2010 - Mar 2012
*Equifax | Costa Rica*

- Ran enterprise technical support in a 24/7 production environment, managing incident escalations; cut ticket resolution time by **25%** and improved reporting and workflow efficiency through automation.

**Technical Support Engineer** Jul 2008 - Oct 2010
*HP | Costa Rica*

- Provided enterprise application support, troubleshooting, and production operations for global customers.

## TECHNICAL INSTRUCTION & ENGINEERING ENABLEMENT

**Global Technical Instructor / Enterprise Engineering Trainer (Independent Contract)** Jan 2021 - Present
*Self-employed, via learning partners LearnQuest and Netec for clients including IBM and Walmart | Remote*

- Taught **3,000+ hours** of instructor-led enterprise technical training in **300+ virtual sessions** across 3 regions (AMER, EMEA, APAC), alongside full-time roles.
- Covered SRE, Kubernetes, Docker, AWS, Azure, Databricks, IBM MQ, Db2, observability, REST APIs, DevOps, CI/CD, and production support.
- Designed one hands-on lab per course across **100+ courses** simulating production deployments, incidents, and troubleshooting; taught cohorts of 1-5 learners and groups of 10-20.

## TECHNICAL SKILLS

**Programming & Scripting (8+ years):** Python, Java, JavaScript, Node.js, SQL, Groovy, Shell Scripting, Backend Development

**APIs & Integration:** REST APIs, Jira REST APIs, API Integration, JSON, Webhooks, GraphQL, Postman, API Gateway

**Automation & Engineering Productivity:** Python and Jira API Automation, Jira Automation, ScriptRunner, Reporting and Workflow Automation, Executive Dashboards

**Cloud & Containers:** AWS, Microsoft Azure, Google Cloud Platform, IBM Cloud, Kubernetes, Docker, Amazon EKS, Terraform, Microservices

**DevOps & CI/CD (7-8 years):** CI/CD Pipelines, Jenkins, GitHub, GitLab, Bitbucket, Release Management, Deployment Automation

**SRE & Observability (3.5+ years direct SRE):** Incident Management, Root Cause Analysis, MTTR Improvement, Datadog, Prometheus, Grafana, ELK Stack, Dynatrace, New Relic, CloudWatch, Azure Monitor, PagerDuty, ServiceNow

**Data & Databases:** Databricks, SQL, ETL, Data Pipelines, Looker, Oracle, PostgreSQL, SQL Server, MySQL

**Agile & Delivery Tools:** Scrum, Kanban, SAFe, Jira (Cloud, Server, Data Center), Jira Align, Advanced Roadmaps, Confluence

**AI Tools:** ChatGPT, Azure OpenAI, GitHub Copilot, Amazon CodeWhisperer, Atlassian Rovo

## EDUCATION

**Master of Business Administration (MBA)** *Master Cum Laude, Spain* (2020 - 2021)
**Master of Project Management** *Master Cum Laude, Spain* (2020 - 2021)
**Bachelor of Computer Science** *ULACIT, Costa Rica* (2007 - 2010)

## CERTIFICATIONS & PROFESSIONAL TRAINING

Full Stack Developer Program, Lyfter (2026) • Python Developer (2026) • Certified ScrumMaster, CSM (2026) • Scrum Product Owner Certified, SPOC (2026) • AWS Certified Cloud Practitioner (2024) • Kubernetes Fundamentals (2024) • SAFe Practitioner (2017)

## LANGUAGES

Spanish - Native | English - C2 (Professional Fluency)
